Attainment and Achievement

Attainment and Achievement Summer 2025

Oaklands History of Student Progress Tracking

- 2015/ 2016 Oaklands began the transition from National curriculum levels to I Can statements of achievement for all subjects.
- Summer of 2016 – Key stage 2 end of year assessment changed for those students working below age-related expectations
- September 2016 –2021 leavers joined the school with attainment data in the form of Interim Pre-Key Stage standards. The Interim pre-key stage standards stayed in place for three years, and then they were replaced in 2019 by the pre-key stage standards following the Rochford review recommendations.
- We use the DFE's Secondary accountability document for guidance in measuring progress.

Reporting Progress in 2025

The cohort of 2025 joined Oaklands in 2020 during the COVID-19 pandemic. Due to the Pandemic, no Key Stage Two assessments took place during this year. In the absence of a national comparison, we have used a challenging flight path estimation for all students in English and Maths. To do this, we have been guided by previous national expectations and the guidance for students working below age-related expectations. This has enabled us to see the percentage of students meeting their flight path expectations in English and Maths. As a comparison for Science, we have also used the Mathematics flight path information to analyse the results.

Attainment and Achievement Summer 2025

Attainment

Summer results – Attainment and achievement

The following tables show the excellent results gained by Students in the Summer of 2025

Criteria	Percentage of Year Group 2022	Percentage of Year Group 2023	Percentage of Year Group 2024	Percentage of Year Group 2025
% 5 or more Entry Level or Above Qualifications	100%	100%	100%	97%
% 5 or more GCSEs or Level 1 Equivalent Qualifications	27%	35%	39%	38%

Attainment and Achievement Summer 2025

Progress in the Core Subjects

English

Progress From Key stage 2 to Key stage 4	2022 % of students achieving their flight path target level of qualification	2023 % of students achieving their flight path target level of qualification	2024 % of students achieving their flight path target level of qualification	2025 % of students achieving their flight path target level of qualification
Percentage of students meeting their flight path Qualification Level	70%	74%	88%	88%
Percentage of students surpassing their flight path Qualification Level	-	8% - 3 students	6% - 2 students	-

Overview

Out of the 32 students – 23 students were entered for the examination in English Functional skills at Level 1 and 21 students passed

66% of all students gained a Level One qualification in English

Every student gained a qualification in English

Attainment and Achievement Summer 2025

Mathematics

Progress From Key stage 2 to Key stage 4	2022 % of students achieving their flight path target level of qualification	2023 % of students achieving their flight path target level of qualification	2024 % of students achieving their flight path target level of qualification	2025 % of students achieving their flight path target level of qualification
Percentage of students meeting their flight path Qualification Level	87%	82%	94%	100%
Percentage of students surpassing their flight path Qualification Level			3% - One student	-

Overview

Out of the 32 students – 12 students were entered for the examination in GCSE mathematics and 10 students passed

75% of all students gained a Level One qualification in Mathematics

Every student gained a qualification in Mathematics

Attainment and Achievement Summer 2025

Science

Progress From Key stage 2 to Key stage 4	2022 % of students achieving their flight path target level of qualification	2023 % of students achieving the mathematics flight path target level of qualification	2024 % of students achieving their flight path target level of qualification	2025 % of students achieving their flight path target level of qualification
Percentage of students meeting their flight path Qualification Level	2021/2022 No progress analysis available for Science until 2025. A full cohort must go through for national analysis to be available	88%	82%	91%
Percentage of students surpassing their flight path Qualification Level		15% - 5 students	3% - One student	-

Overview

Out of the 33 students – 10 students were entered for the examination in GCSE Science Double award and 10 students passed.

72% of students gained a Level one qualification in Science, 31% Double award GCSE.

Every student gained a qualification in Science

Attainment and Achievement Summer 2025

Subject Overview

Subject	Results 2025
English	100% Achievement 66% at L1 Flight path – 88%
Mathematics	100% Achievement 75% at GCSE or L1 Equivalent Flight Path – 100%
Science	100% Achievement 72% at GCSE or L1 Equivalent Flight Path – 91%
ICT	91% Achievement 13% at L1
Art	97% Achievement 47% at GCSE
RE	94% Achievement
Option Subjects	94 % of students achieved two option subjects
